Silver Knights Coding

In Silver Knights Coding, brought to you by *Creative Enrichment*, children create stories, games, and animations using a visual programming language called Scratch. It's as easy to use as snapping together building blocks!

In Coding Club, students will learn to code their own interactive animations, stories and games using Scratch. Scratch is a fun and creative way to learn programming skills and computational thinking. If they're new to programming, we will teach students the basics; if they're an experienced coder, we'll teach them more advanced concepts. When they're coding with Scratch, the only limit is their imagination! Scratch is designed and maintained by the Lifelong Kindergarten Group at the MIT Media Lab. What will you create?

Please note...Students returning to Coding Club will learn more advanced concepts through our newly developed Red curriculum, with all brand new projects!

Each student takes home a USB with all the programs on the last day of each session.

Please complete this registration form, attach payment, and return to Greenwood ES by Sept. 7th (early bird) or Sept. 21st
