

# Greenwood ES

## Silver Knights Robotics 2019

### Build Robots.... Write Code... Engineer...

Students collaborate and use digital technology to design and build their own robot. Robots are operated by a tablet or smartphone and include a SmartHub, motor, and sensors. Students learn to use gears and pulleys to program robots that move, crank, spin, and communicate!

In Robotics: LEGO WeDo 2.0, the curriculum encourages students to collaborate and share their discoveries as they build, program, and modify projects.
